### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 3/30/07.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

### **DETAILED ACTION**

1. This office is in response to Amendment filed on March 30, 2007.
2. Claims 2-5, 7, 11-12, 14, 18, 21, 24-26, and 28 have been canceled.

### ***Response to Arguments***

3. Applicant's arguments with respect to claims 1, 6, 8-10, 13, 15-17, 19-20, 22-23, 27 and 29 have been considered but are moot in view of the new ground(s) of rejection.

### ***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

5. Claims 1, 6, 8-10, 13, 15-17, 19-20, 22-23, 27 and 29 are rejected under 35 U.S.C. 102(e) as being anticipated by Amin et al. (6,630,883).

Regarding claims 1, 17 and 27, Amin discloses a method and system for delivering a short message notification, comprising: receiving an incoming voice call for

a mobile station that is busy in a packet-switched data call (see fig.1, elements 20, 10, col.7, lines 3-4 and its description); sending an incoming call notification to the mobile station via signaling over an existing traffic channel allocated to the data call (see fig.1, elements 20, 10, col.7, lines 4-5 and its description); and reconfiguring the existing traffic channel to support the incoming voice call and delivering the incoming voice call to the mobile station via the reconfigured existing traffic channel (see fig.1, elements 20, 10, col.7, lines 5-7 and its description).

Regarding claims 6, 19, Amin further discloses suspending or ending a data transaction associated with the data call (see fig.1, elements 20, 10, col.7, lines 8-9 and its description).

Regarding claims 8-9, 15-16, 20, 22-23, and 29, Amin further discloses wherein reconfiguring the existing traffic channel for use delivering the incoming voice call to the mobile station comprises establishing a new service option connection at a network Base Station (BS), and requesting a network Mobile Switching Center (MSC) to establish a voice connection for the incoming voice call (see fig.4 and its description).

Regarding claims 10, 13, Amin discloses a method and system for delivering a short message notification, comprising: receiving an incoming voice call indication at a Base Station (BS) that is targeted to a mobile station busy in a packet-switched data call (see fig.1, elements 20, 10, col.7, lines 3-4 and its description); and sending a call notification message to the mobile station and, responsive to receiving a return acknowledgment from the mobile station, reconfiguring the service connection of the

mobile station to deliver the incoming voice call using the existing traffic channel (see fig.1, elements 20, 10, col.7, lines 4-7 and its description).

***Conclusion***

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
